Eppendorf Advantage Promotions

Advantage means putting yourself in a better position, and that's exactly what we want for you.

The work you do is more important now than ever before, and the samples you produce more precious. You have been able to rely on Eppendorf to help deliver accurate, reliable results, but we want to be more than your provider of consumables, instruments, and services.

We are also here to be your partner and resource center. Our bi-annual publication includes articles and promotional offers. We hope to help give you the Advantage to succeed in the lab!

Ordering Information
